surpassed by 2021. We also signed long-term labor agreements with more than half of our workforce, and completed our major maintenance initiatives, setting us up for continued success going forward.”

Mr. Goncalves continued: “In the fourth quarter of 2022 we generated healthy free cash flow of \$262 million. We also achieved our targeted unit cost reduction of \$80 per net ton, which helped us to partially offset the impact of lagged index pricing. Entering 2023, as our
